

## Collage Lab Activity

**Directions:** You will be told to go to a folder (in PSRGraphicTutorials folder on the C Drive). This folder will contain the files that you are to use to construct your Collage.

**Procedure:**

1. Open Paint Shop Pro and create a New Image with the dimensions of 7 x 5 inches.
2. Open all the image files in the collage folder and select at least 10 to use in the creation of your collage.
3. Create a gradient background color for your New Image based upon the image files and Fill the new Image Background.
4. You must use an Image Selection from at least 10 of the included image files and at least three different Selection Shapes with a feathering range of 10 – 20.
5. Arrange the pictures in an artistic fashion to create your collage.
